To Whom It May Concern,

Re: 2018- 03-19_AuRico Metals Inc. Kemess Underground Project, Decision Statement Condition #10.1 Implementation Schedule

As per CEAA Condition 10.1 of the March 13, 2017 AuRico Metals Kemess Underground Project which states:

“The Proponent shall submit an implementation schedule for conditions contained in this Decision Statement to the Agency at least 30 days prior to the start of construction. The implementation schedule shall indicate the commencement and completion dates for each activity relating to conditions set out in this Decision Statement.”

Please find enclosed the Implementation Schedule for the Project. The schedule assumes construction start date on or about April 17, 2018. If you have any questions or concerns, please do not hesitate to contact me directly.

Sincerely,

Sean Masse
Project Manager, Kemess Underground Project
Sean.Masse@centerragold.com

AuRico Metals Inc Kemess Underground Implementation Schedule

CEAA Condition	Condition	Commencement Date	Completion date	Relevant Notes
2	General Conditions			
2.1	The Proponent shall ensure that its actions in meeting the conditions set out in this Decision Statement are considered in a careful and precautionary manner, promote sustainable development, are informed by the best information and knowledge available at the time the Proponent takes action, including community and Indigenous traditional knowledge, are based on methods and models that are recognized by standard-setting bodies, are undertaken by qualified individuals, and have applied the best available economically achievable technologies.	March 13, 2017	End of all Project phases	Condition is understood and has been applied to engineering design and will continue to apply to all phases of the Project.

<p>2.2</p>	<p>The Proponent shall, where consultation is a requirement of a condition set out in this Decision Statement:</p> <p>2.2.1 provide a written notice of the opportunity for the party or parties being consulted to present their views and information on the subject of the consultation;</p> <p>2.2.2 provide sufficient information on the scope and the subject matter of the consultation and a reasonable period of time to permit the party or parties being consulted to prepare their views and information;</p> <p>2.2.3 provide a full and impartial consideration of any views and information presented by the party or parties being consulted on the subject matter of the consultation; and</p> <p>2.2.4 advise in a timely manner the party or parties being consulted on how their views and information have been considered by the Proponent.</p>	<p>March 13, 2017</p>	<p>End of all Project phases</p>	<p>AuRico Metals has continued to consult with stakeholders and Aboriginal Groups on conditions and related topics since the Decision Statement was issued by CEAA.</p>
<p>2.3</p>	<p>The Proponent shall, where consultation with Indigenous groups is a requirement of a condition set out in this Decision Statement, communicate with each Indigenous group with</p>	<p>March 13, 2017</p>	<p>End of all Project phases</p>	<p>Condition is understood and is relevant for duration of Project.</p>

	<p>respect to the manner by which to satisfy the consultation requirements referred to in condition 2.2, including methods of notification, the type of information and the period of time to be provided when seeking input, the process for full and impartial consideration of any views and information presented on the subject of the consultation, and the means by which Indigenous groups will be informed of how their views and information have been considered by the Proponent.</p>			
2.4	<p>The Proponent shall, where a follow-up program is a requirement of a condition set out in this Decision Statement, determine, as part of the development of the follow-up program and in consultation with Indigenous groups and relevant authorities, the following information, for each follow-up program:</p> <p>2.4.1 the methodology, location, frequency, timing, and duration of monitoring associated with the follow-up program as well as the scope, content, and frequency of reporting of the follow-up results;</p> <p>2.4.2 the levels of environmental change relative to established baseline</p>	On or about April 17, 2018	End of all Project phases	Condition is understood and is relevant for duration of project

	<p>conditions that would require the Proponent to implement additional mitigation measure(s), including instances where the Proponent may require Designated Project activities to be stopped; and</p> <p>2.4.3 the range of technically and economically feasible mitigation measures to be implemented by the Proponent if monitoring conducted as part of the follow-up program shows that the levels of environmental change referred to in condition 2.4.2 have been reached or exceeded.</p>			
2.5	<p>The Proponent shall submit the information referred to in condition 2.4 to the Agency prior to the implementation of a follow-up program. The Proponent shall update that information in consultation with Indigenous groups and relevant authorities during the implementation of the follow-up program, and shall provide the updated information to the Agency, Indigenous groups, and relevant authorities within 30 days of the information being updated.</p>	On or about April 17, 2018	End of all Project Phases	Condition is understood and is relevant for duration of project
2.6	<p>The Proponent shall, where a follow-up program is a requirement of a condition set out in this Decision Statement:</p>	On or about April 17, 2018	End of all Project Phases	EMPs have been developed as required by EAO Conditions -EMPs outline the requirements for monitoring and

	<p>2.6.1 conduct the follow-up program according to the information determined pursuant to condition 2.4;</p> <p>2.6.2 undertake monitoring and analysis to verify the accuracy of the environmental assessment as it pertains to the particular condition and/or to determine the effectiveness of any mitigation measure(s);</p> <p>2.6.3 determine whether modified or additional mitigation measures are required based on the monitoring and analysis undertaken pursuant to condition 2.6.2; and</p> <p>2.6.4 if modified or additional mitigation measures are required pursuant to condition 2.6.3, 2.6.4 develop and implement the modified or additional mitigation measures in a timely manner and monitor them pursuant to condition 2.6.2.</p>			<p>implementation of mitigations</p> <p>-EMPs allow for adaptive management to ensure mitigations where required are changed or amended to manage the identified impact</p> <p>-Project monitoring programs will verify the accuracy of the environmental assessment and describe the process for mitigating any additional effects identified during monitoring</p>
2.7	<p>Where consultation with Indigenous groups is a requirement of a follow-up program, the Proponent shall discuss with each Indigenous group opportunities for the participation of that Indigenous group in the implementation of the follow-up program, including the analysis of the follow-up results and whether modified</p>	March 13, 2017	End of all Project phases	Condition is understood and is relevant for duration of project

	or additional mitigation measures are required, as set out in condition 2.6.			
2.8	The Proponent shall follow the consultation process outlined in conditions 2.3, 2.4, 2.5, and 2.7 when consulting Gitxsan Wilp Nii Kyap for the purpose of conditions 3.7 and 9.5.	March 13, 2017	End of all Project phases	Condition is understood and is relevant for duration of project
2.9	<p>The Proponent shall, commencing in the reporting year during which the Proponent begins the implementation of the conditions set out in this Decision Statement, prepare an annual report that sets out:</p> <p>2.9.1 the activities undertaken in the reporting year to comply with each of the conditions set out in this Decision Statement;</p> <p>2.9.2 how the Proponent complied with condition 2.1;</p> <p>2.9.3 for conditions set out in this Decision Statement for which consultation is a requirement, how the Proponent considered any views and information that the Proponent received during or as a result of the consultation;</p>	March 13, 2017	End of all Project phases	Condition is understood and is relevant for duration of project

	<p>2.9.4 the information referred to in conditions 2.4 and 2.5 for each follow-up program;</p> <p>2.9.5 the results of the follow-up program requirements identified in conditions 3.7, 4.3, 5.1, 6.10, and 6.11; and</p> <p>2.9.6 any modified or additional mitigation measures implemented or proposed to be implemented by the Proponent, as determined under condition 2.6.</p>			
2.10	The Proponent shall submit to the Agency the annual report referred to in condition 2.9, including an executive summary in both official languages, no later than March 31 following the reporting year to which the annual report applies.	March 31, 2018	End of All Project Phases	Condition is understood and is relevant for duration of project
2.11	The Proponent shall publish on the Internet, or any medium which is widely publicly available, the annual reports and the executive summaries referred to in conditions 2.9 and 2.10, the reports related to accidents and malfunctions referred to in conditions 9.4.3 and 9.4.4, the communication plan referred to in condition 9.5, the implementation schedule referred to in condition 10.1, and any update(s) or revision(s) to the above documents,	On or about April 17, 2017	On or about 2035	Documents are published on the Centerra Gold website as they are approved (www.centerragold.com)

	upon submission of these documents to the parties referenced in the respective conditions. The Proponent shall keep these documents publicly available throughout construction and operation and until the end of decommissioning. The Proponent shall notify the Agency, Indigenous groups, and Gitxsan Wilp Nii Kyap of the availability of these documents upon publication.			
2.12	The Proponent shall notify the Agency and Indigenous groups in writing no later than 60 days after the day on which there is a transfer of ownership, care, control, or management of the Designated Project in whole or in part.	As required	End of all Project phases	Condition is understood and is relevant for duration of the project
2.13	The Proponent shall consult with Indigenous groups prior to initiating any material change(s) to the Designated Project that may result in adverse environmental effects and shall notify the Agency in writing no later than 60 days prior to initiating the change(s).	As required	End of all Project phases	Condition is understood and is relevant for duration of the project
2.14	In notifying the Agency pursuant to condition 2.13, the Proponent shall provide the Agency with a description of the potential adverse environmental effects of the change(s) to the Designated Project, the measures proposed to be implemented by the	As required	End of all Project phases	Condition is understood and is relevant for duration of the project

	Proponent to mitigate adverse environmental effects, and the results of the consultation with Indigenous groups.			
3	Fish and Fish Habitat			
3.1	The Proponent shall implement erosion and sedimentation control measures within the Project area during all phases of the Designated Project to avoid the deposit of deleterious substances in waters frequented by fish.	On or About April 17, 2018	End of all Project Phases	Condition is understood and is relevant for duration of the project - Requirements are outlined in Project EMP documents and verified during monitoring and inspection processes
3.2	The Proponent shall, taking into consideration Fisheries and Oceans Canada's <i>Measures to Avoid Causing Harm to Fish and Fish Habitat Including Aquatic Species at Risk</i> , implement mitigation measures when conducting Designated Project activities to avoid causing harm to fish and fish habitat, including timing work in or around water to respect the timing windows identified to protect fish.	On or About April 17, 2018	End of all Project Phases	Condition is understood, and condition requirements are reflected in the Fish and Aquatic Effects Management Plan and related permit requirements.
3.3	The Proponent shall comply with the <i>Metal Mining Effluent Regulations</i> and subsection 36(3) of the <i>Fisheries Act</i> regarding the deposit of effluent from the Designated Project in water frequented by fish, taking into account the Canadian Council of Ministers of the	On or About April 17, 2018	End of all Project Phases	Condition is understood, and condition requirements are reflected in the Fish and Aquatic Effects Management Plan and related permit requirements, including Fisheries Act Authorizations.

	<p>Environment's <i>Water Quality Guidelines for the Protection of Aquatic Life</i>, from the start of construction to the end of decommissioning. In doing so, the Proponent shall:</p> <p>3.3.1 place all acid-generating and potentially acid-generating material into the tailings storage facility and submerge all such materials placed in the tailings storage facility under a permanent water cover; and</p> <p>3.3.2 collect and treat all waters affected by the Designated Project that do not meet the requirements of the <i>Metal Mining Effluent Regulations</i> and subsection 36(3) of the <i>Fisheries Act</i>, as applicable, prior to the affected waters being deposited in waters frequented by fish.</p>			
3.4	The Proponent shall install hydraulic plugs in the declines before the underground mine is flooded to direct seepage from the flooded underground mine towards East Cirque Creek.	On or about 2037	On or about 2037	
3.5	The Proponent shall, in a manner that complies with the <i>Metal Mining Effluent Regulations</i> and subsection 36(3) of the <i>Fisheries Act</i> , discharge water from the tailings storage facility into Attichika Creek during construction and the first	On or about 2019	On or about 2024	Condition is understood, and condition requirements are reflected in the Fish and Aquatic Effects Management Plan, Mine Site Water Management Plan and related permit requirements.

	year of operation such that flow rates downstream of the discharge location are within the range of minimum and maximum flow rates naturally occurring in Attichika Creek and shall only discharge water into Attichika Creek during open water months.			
3.6	The Proponent shall divert all runoff from the East Pit quarry into the tailings storage facility during construction and operation.	On or about April 17, 2018	On or about 2035	
	<p>The Proponent shall develop, prior to construction and in consultation with Indigenous groups, Gitxsan Wilp Nii Kyap, and relevant authorities, and implement, from the start of construction to the end of decommissioning, a follow-up program to verify the accuracy of the environmental assessment as it pertains to fish and fish habitat and to determine the effectiveness of mitigation measures referred to in conditions 3.1 to 3.6. As part of the follow-up program, the Proponent shall:</p> <p>3.7.1 monitor quality of water discharged in Attichika Creek during the</p>	<p>March 9, 2017</p> <p>On or about April 17, 2018</p>	End of all Project Phases	<p>AuRico Metals consulted on the development and implementation of all required EMPs. AuRico Metals is committed to ongoing engagement on implementation.</p> <p>EMPs outline requirements for monitoring and implementation of mitigations to manage environmental effects.</p> <p>Project monitoring programs verify the accuracy of the environmental assessment and describe the process for mitigating any additional effects identified during the monitoring</p>

	<p>dewatering of the Kemess South Pit and treat that water to meet the requirements of subsection 36(3) of the <i>Fisheries Act</i>;</p> <p>3.7.2 monitor surface water quality in Amazay Lake and groundwater movement between the subsidence zone identified by the Proponent during the environmental assessment and Amazay Lake;</p> <p>3.7.3 monitor changes in channel form and sediment load downstream of the discharge location in Attichika Creek;</p> <p>3.7.4 monitor changes in water quality in Waste Rock Creek and the tailings storage facility, including changes in selenium concentrations;</p> <p>3.7.5 monitor the presence and use of spawning habitat by bull trout (<i>Salvelinus confluentus</i>) and rainbow trout (<i>Oncorhynchus mykiss</i>) downstream of the discharge location in Attichika Creek prior to and after the installation of the discharge pipeline into Attichika Creek. The Proponent shall offset any loss of spawning habitat for bull trout (<i>Salvelinus confluentus</i>) and rainbow trout (<i>Oncorhynchus mykiss</i>) in Attichika Creek if monitoring</p>	<p>On or about April 17, 2018</p> <p>On or about May 2020</p> <p>On or about April 17, 2018</p> <p>On or about April 17, 2018</p>		
--	---	---	--	--

	<p>results show that spawning habitat loss has occurred; and</p> <p>3.7.6 monitor contaminants, including mercury, in the tissue of fish species harvested by Indigenous groups in Thutade Lake, including bull trout (<i>Salvelinus confluentus</i>).</p>	Aril 17, 2018		
4	Migratory Birds			
4.1	<p>The Proponent shall carry out Designated Project activities in a manner that protects migratory birds and avoids harming, killing, or disturbing migratory birds or destroying, disturbing, or taking their nests or eggs. In this regard, the Proponent shall take into account Environment and Climate Change Canada's <i>Avoidance Guidelines</i>. The Proponent's actions in applying the <i>Avoidance Guidelines</i> shall be in compliance with the <i>Migratory Birds Convention Act, 1994</i> and with the <i>Species at Risk Act</i>.</p>	On or about April 17, 2018	End of all Project Phases	Wildlife Management Plan includes mitigations requirements and considers the Environment Canada's Avoidance Guidelines and Species at Risk Act.
4.2	<p>The Proponent shall deter migratory birds from accessing the tailings storage facility (tsf) and seepage ponds until water quality is not harmful to migratory birds.</p>	On or about April 17, 2018		Mitigation requirements for deterring migratory birds from the TSF and seepage ponds are reflected in the Wildlife Management Plan. Monitoring is ongoing and corrective action will be implemented as required.

4.3	<p>The Proponent shall develop, prior to construction and in consultation with Indigenous groups and relevant authorities, a follow-up program to determine the effectiveness of the mitigation measures to avoid harm to migratory birds, their eggs, and nests, including the mitigation measures used to comply with conditions 4.1 and 4.2. The Proponent shall implement the follow-up program from the start of construction to the end of decommissioning.</p>		End of all Project Phases	<p>AuRico Metals consulted on the development and implementation of all required EMPs AuRico Metals is committed to ongoing engagement on implementation EMPs outline requirements for monitoring and implementation of mitigations to manage environmental effects. Project monitoring programs verify the accuracy of the environmental assessment and describe the process for mitigating any additional effects identified during the monitoring</p>
5	Human Health			
5.1	<p>The Proponent shall develop, prior to construction and in consultation with Indigenous groups and relevant authorities, a follow-up program to verify the accuracy of the environmental assessment as it pertains to adverse effects on the health of Indigenous Peoples caused by changes in concentrations of contaminants of potential concern identified during the environmental assessment in air, soil, water, and sediment. The Proponent shall implement the follow-up program during construction and operation. As part of the development of the follow-up program, the Proponent shall:</p>	On or about April 17, 2018	On or about 2035	Condition is understood and is relevant for duration of the project

	<p>5.1.1 identify levels of environmental change relative to established baseline conditions for contaminants of potential concern that would require the Proponent to implement modified or additional mitigation measure(s) to mitigate increased risks to human health; and</p> <p>5.1.2 if monitoring results demonstrate that concentration levels for contaminants of potential concern are greater than the identified levels of environmental change, update the human health risk assessment for the consumption of traditional foods exposed to these contaminants and communicate the results of the updated human health risk assessment to Indigenous groups.</p>			
6	Current use of lands and resources for traditional purposes			
6.1	<p>The Proponent shall install and maintain, during construction and operation, ramps every 100 to 300 metres over the discharge line between the tailing storage facility and Attichika Creek to provide passage for moose (<i>Alces alces</i>), woodland caribou (<i>Rangifer tarandus caribou</i>), grizzly bear (<i>Ursus arctos</i>), and furbearers. The Proponent shall identify the locations of ramps in consultation with Indigenous groups and relevant authorities.</p>	On or about April 17, 2018	On or about 2035	

6.2	The Proponent shall create and maintain, during construction and operation, escape pathways along all access roads associated with the Designated Project, including the northern section of the Omineca Resource Access Road, to allow ungulates to exit the plowed roads. The Proponent shall identify the locations of escape pathways in consultation with Indigenous groups and relevant authorities.	On or about April 17, 2018	On or about 2035	
6.3	The Proponent shall, from the start of construction to the end of decommissioning, remove carrion within 24 hours of its discovery by the Proponent from all access roads associated with the Designated Project, including the northern section of the Omineca Resource Access Road.	On or about April 17, 2018	End of all Project Phases	
6.4	The Proponent shall prohibit employees and contractors associated with the Designated Project from fishing, hunting, and trapping within the Project Area, unless an employee or a contractor is provided access by the Proponent for traditional purposes or for exercising Aboriginal rights, to the extent that such access is safe.	On or about April 17, 2018	End of all Project Phases	Condition is understood and is relevant for duration of the project

6.5	The Proponent shall, prior to construction and in consultation with Indigenous groups and relevant authorities, conduct pre-clearing surveys to identify Western toad (<i>Anaxyrus boreas</i>) breeding habitat, and shall implement measures to mitigate the loss of Western toad (<i>Anaxyrus boreas</i>) breeding habitat caused by the Designated Project.	On or about April 1, 2018	On or about April 17, 2018	
6.6	The Proponent shall conduct pre-clearing surveys to determine the distribution of little brown myotis (<i>Myotis lucifugus</i>) and Northern myotis (<i>Myotis septentrionalis</i>), and establish, in consultation with Indigenous groups and relevant authorities, buffer zones around active hibernacula and active roosts.	On or about April 1, 2018	On or about April 17, 2018	
6.7	The Proponent shall install, prior to construction, and maintain, during construction and operation, roosting structures to offset any loss of little brown myotis (<i>Myotis lucifugus</i>) and Northern myotis (<i>Myotis septentrionalis</i>) roosting habitat.	On or before April 17, 2018	On or about 2035	
6.8	The Proponent shall develop and implement a follow-up program to monitor the little brown myotis (<i>Myotis lucifugus</i>) and Northern myotis (<i>Myotis</i>	On or about April 17, 2018	On or about 2035	

	<i>septentrionalis</i>) usage of buffer zones and roosting structures to determine the effectiveness of the mitigation measures during construction and operation.			
6.9	The Proponent shall, in consultation with Indigenous groups, undertake progressive reclamation of the habitats disturbed by the Designated Project. The Proponent shall use native species when undertaking that progressive reclamation.	In or around September 2017	End of all Project phases	Condition is understood and is relevant for duration of the project
6.10	The Proponent shall develop, prior to construction and in consultation with Indigenous groups and relevant authorities, a follow-up program to verify the accuracy of the environmental assessment as it pertains to the presence of hoary marmot (<i>Marmota caligata</i>), white-tailed ptarmigan (<i>Lagopus leucura</i>), and short-eared owl (<i>Asio flammeus</i>) within the subsidence zone identified by the Proponent during the environmental assessment and within a buffer area of 250 metres along the limits of that subsidence zone. The Proponent shall implement the follow-up program during construction and operation.	On or about April 17, 2018	End of all Project phases	Condition is understood and is relevant for duration of the project

	northern section of the Omineca Resource Access Road.			
6.12	The Proponent shall provide Indigenous groups with the implementation schedule, updates, or revisions to the implementation schedule pursuant to conditions 10.1 to 10.3 at the same time the Proponent provides these documents to the Agency.	As required		Implementation Schedule updates are provided to Aboriginal groups at the same time they are provided to CEAA
7	Physical and cultural heritage structures, sites, or things of historical, archaeological, paleontological, or architectural significance			
7.1	<p>The Proponent shall, for any previously unidentified archeological structures, sites, or things of historical, archaeological, paleontological, or architectural significance discovered by the Proponent or brought to the attention of the Proponent by an Indigenous group, Gitxsan Wilp Nii Kyap, or another party during any phase of the Designated Project:</p> <p>7.1.1 immediately halt work at the location of the discovery;</p> <p>7.1.2 have a qualified individual conduct an assessment at the location of the discovery;</p> <p>7.1.3 inform, forthwith, in writing, Indigenous groups and Gitxsan Wilp Nii Kyap of the discovery, and allow for monitoring by Indigenous groups and</p>	On or About April 17, 2018	End of all Project Phases	Condition is understood and is relevant for duration of the project

	<p>Gitxsan Wilp Nii Kyap during archeological work; and</p> <p>7.1.4 comply with all applicable legislative or legal requirements and associated regulations and protocols respecting the discovery, recording, transferring, and safekeeping of previously unidentified archeological structures, sites, or things of historical, archaeological, paleontological, or architectural significance.</p>			
7.2	The Proponent shall not undertake any ground altering activities within 50 metres of the boundaries of archeological sites, unless authorized by relevant authorities.	On or about April 17, 2018	End of all Project Phases	Condition is understood and is relevant for duration of the project
8	Independent Environmental Monitor			
8.1	Prior to the start of construction, the Proponent shall retain the service of an independent environmental monitor, who is a qualified individual as it pertains to environmental monitoring of mining projects in British Columbia, to observe, record, and report on the implementation of the mitigation measures set out in this Decision Statement.	On or about April 17, 2018	End of all Project Phases	Condition is understood and is relevant for duration of the project
8.2	The Proponent shall give the independent environmental monitor the authority to stop Designated Project	On or about April 17, 2018	End of all Project Phases	Condition is understood and is relevant for duration of the project

	activities that do not comply with the conditions set out in this Decision Statement.			
8.3	<p>The Proponent shall require the independent environmental monitor to prepare reports that include:</p> <p>8.3.1 a description, including through photo evidence, of the Designated Project activities that occurred and the mitigation measures that were applied during the period covered by the report; and</p> <p>8.3.2 a description, including through photo evidence, of occurrences of non-compliance related to the implementation of mitigation measures set out in this Decision Statement observed during the period covered by the report, the date of the occurrence(s) of non-compliance, whether Designated Project activities were stopped as a result of non-compliance, how the occurrence(s) of non-compliance was or were corrected by the Proponent, the date that the corrective action(s) was or were completed by the Proponent, or, if any, the status of pending occurrence(s) non-compliance that have not been corrected yet, and a description of any adverse environmental effect(s) associated with the occurrence(s) of non-compliance.</p>	On or about April 17, 2018	End of all Project Phases	Condition is understood and is relevant for duration of the project

8.4	The Proponent shall require the independent environmental monitor to retain the reports referred to in condition 8.3 until the end of decommissioning. The Proponent shall require the independent environmental monitor to provide the reports referred to in condition 8.3 to the Agency, Indigenous groups, and relevant federal authorities within 10 days of their production. If occurrence(s) of non-compliance are observed by the independent environmental monitor, the Proponent shall require the independent environmental monitor to report all occurrence(s) of non-compliance directly to the Agency, Indigenous groups, and relevant federal authorities immediately.	On or about April 17, 2018	End of all Project Phases	Condition is understood and is relevant for duration of the project
9	Accidents and malfunctions			
9.1	The Proponent shall take all reasonable measures to prevent accidents and malfunctions that may result in adverse environmental effects.	On or about April 17, 2017	End of all Project Phases	Condition is understood and is relevant for duration of the project
9.2	The Proponent shall, prior to construction, consult with Indigenous groups and relevant authorities on the measures to be implemented to prevent accidents and malfunctions.	March 13, 2017	End of all Project phases	

9.3	<p>The Proponent shall, prior to construction and in consultation with Indigenous groups and relevant authorities, develop an emergency response plan in relation to the Designated Project.</p>	March 13, 2017	On or about April 17, 2018	
9.4	<p>In the event of an accident or malfunction with the potential to cause adverse environmental effects, the Proponent shall implement the emergency response plan referred to in condition 9.3 and shall:</p> <p>9.4.1 notify Indigenous groups, Gitxsan Wilp Nii Kyap, and relevant authorities of the accident or malfunction as soon as possible, and notify the Agency in writing;</p> <p>9.4.2 implement immediate measures to mitigate any adverse environmental effects associated with the accident or malfunction;</p> <p>9.4.3 submit a written report to the Agency no later than 30 days after the day on which the accident or malfunction took place. The written report shall include:</p> <p>9.4.3.1 a description of the accident or malfunction and of its adverse environmental effects;</p>	On or about April 17, 2018	End of All Project phases	

	<p>9.4.3.2 the measures that were taken by the Proponent to mitigate the adverse environmental effects of the accident or malfunction;</p> <p>9.4.3.3 any views received from Indigenous groups, Gitxsan Wilp Nii Kyap, and relevant authorities with respect to the accident or malfunction, its adverse environmental effects, and measures taken by the Proponent to mitigate adverse environmental effects;</p> <p>9.4.3.4 a description of any residual adverse environmental effects and any modified or additional measures required by the Proponent to mitigate residual adverse environmental effects;</p> <p>9.4.3.5 details concerning the implementation of the emergency response plan referred to in condition 9.3; and</p> <p>9.4.4 submit a written report to the Agency, no later than 90 days after the day on which the accident or malfunction took place, on the changes made to avoid a subsequent occurrence of the accident or malfunction, and on the implementation of any modified or additional measures to mitigate and monitor residual adverse environmental effects and to carry out any required progressive reclamation, taking into</p>

	account the information in the written report submitted pursuant to condition 9.4.3.			
9.5	<p>The Proponent shall develop and implement a communication plan in consultation with Indigenous groups and Gitxsan Wilp Nii Kyap. The Proponent shall develop the communication plan prior to construction and shall implement and maintain it up to date from the start of construction to the end of decommissioning. The plan shall include:</p> <p>9.5.1 the types of accidents and malfunctions requiring the Proponent to notify the respective Indigenous groups and Gitxsan Wilp Nii Kyap;</p> <p>9.5.2 the manner by which Indigenous groups and Gitxsan Wilp Nii Kyap shall be notified by the Proponent of an accident or malfunction and of any opportunities for the Indigenous groups and Gitxsan Wilp Nii Kyap to assist in the response to the accident or malfunction; and</p> <p>9.5.3 the contact information of the representatives of the Proponent that the Indigenous groups and Gitxsan Wilp Nii Kyap may contact and of the representatives of the respective</p>	March 13, 2017	On or about April 17, 2018	

	Indigenous groups and Gitxsan Wilp Nii Kyap to which the Proponent provides notification.			
10	Implementation schedule			
10.1	The Proponent shall submit an implementation schedule for conditions contained in this Decision Statement to the Agency at least 30 days prior to the start of construction. The implementation schedule shall indicate the commencement and completion dates for each activity relating to conditions set out in this Decision Statement.	2018-03-01	COMPLETE 2018-03-19	Letter sent 2018-03-19 to CEAA, entitled "AuRico Metals Inc. Kemess Underground Project, Decision Statement Condition #10.1 Implementation Schedule"
10.2	The Proponent shall submit an update to this implementation schedule in writing to the Agency every two years on or before March 31, until completion of the activities.	2019	End of all phases of Project	First two-year cycle report due March 31, 2017
10.3	The Proponent shall provide the Agency with a revised implementation schedule if any material change(s) occur from the initial schedule referred to in condition 10.1 or any subsequent update(s). The Proponent shall provide the revised implementation schedule at least 30 days prior to the implementation of the change.	As required	End of all phases of Project	
11	Record keeping			

11.1	<p>The Proponent shall maintain all records relevant to the implementation of the conditions set out in this Decision Statement, including any records that the Agency considers relevant.
