Why Centerra?

- A leading North American-based gold producer with over 17 years of experience in one of the world's most promising and under developed gold regions
- Largest Western-based gold producer in Central Asia and the former Soviet Union
- Two excellent operating mines producing solid cash flows and earnings
- Significant potential to increase reserves at existing mines
- Promising exploration properties in the Kyrgyz Republic, Mongolia, Turkey, Russia and the United States (Nevada)
- Solid balance sheet, no debt
- Unhedged strategy
- Seasoned management with proven acquisition, development, operating and exploration experience

Quick facts

- 2 producing gold mines, 2008 production 748,888 oz.
- 680,000 - 730,000 oz gold (Au) expected production in 2009
- Expected cash costs \$410 - \$450/oz
- Balanced growth strategy

Kumtor Mine: Kyrgyz Republic

- One of the largest gold mines in Central Asia
- 2008: 556,251 oz Au @ \$438/oz
- 2009: expected Au production 560,000 - 600,000 oz Au @ \$390 - \$430/oz
- Underground exploration and development

Boroo Mine: Mongolia

- Largest gold mine in Mongolia
- 2008: 192,637 oz Au @ \$382/oz
- 2009: expected production 120,000 - 130,000 oz Au @ \$495 - \$535/oz
- Heap leach started in 2008

Gatsurt Development Project: Mongolia

- 2009: start road construction
- Reserves and resources approved
- Planned construction of BioX[®] facility at Boroo once Investment Agreement signed

Officers
