

Centerra is a growth-oriented, **pure-play gold company** engaged in operating, developing, exploring and acquiring gold properties primarily in Central Asia, the former Soviet Union and other emerging markets. In 2005, the two mines operated by the Company are expected to produce **800,000 ounces** of gold at a total cash cost of about **\$232 per ounce**. This ranks Centerra as a leading North American-based gold producer and the largest Western-based gold producer in Central Asia and the former Soviet Union. Centerra's primary objective is to become a senior gold producer by realizing the potential of current properties and by leveraging its experience and financial strength to acquire and develop new long-life, low-cost projects. Centerra's shares trade on the Toronto Stock Exchange (TSX) under the **symbol CG**. The Company is based in Toronto, Canada.

A proven record of wealth creation on new frontiers.

Why Centerra?

- A leading, low-cost North American-based gold producer with over 12 years of experience in one of the world's most promising and underdeveloped gold regions
- Largest Western-based gold producer in Central Asia and the former Soviet Union
- Two low-cost operating mines producing solid cash flows and earnings
- Significant potential to increase reserves at existing mines
- Promising exploration properties in the Kyrgyz Republic, Mongolia and Nevada
- Debt-free balance sheet
- Unhedged strategy that maximizes leverage to the gold price
- Seasoned management with proven acquisition, development, operating and exploration experience
- Balanced growth strategy

PRODUCING MINES

Kumtor Gold Mine

Kumtor is one of the largest gold mines in Central Asia, having produced over five million ounces of gold since 1997.

Location: *Kyrgyz Republic*

Ownership: 100%

Type of mine: *Open pit*

Start of commercial production: *May 1997*

Proven and probable reserves: *31 million tonnes*

Average grade: *3.3 grams per tonne*

Contained gold: *3.2 million ounces*

Measured and indicated resources: *17.6 million tonnes*

Average grade: *3.4 grams per tonne*

Contained gold: *1.9 million ounces*

2004 milling rate: *5.7 million tonnes per year*

Nine months 2005 gold production: *402,514 ounces*

Nine months 2005 average cash cost: *\$254 per ounce*

Boroo Gold Mine

The largest gold mine in Mongolia, Boroo started commercial production in March 2004.

Location: *Mongolia*

Ownership: 95%

Type of mine: *Open pit*

Start of commercial production: *March 2004*

Proven and probable reserves: *12 million tonnes*

Average grade: *3.1 grams per tonne*

Contained gold: *1.2 million ounces*

Measured and indicated resources: *2.6 million tonnes*

Average grade: *2.3 grams per tonne*

Contained gold: *0.2 million ounces*

2004 milling rate: *1.8 million tonnes per year*

Nine months 2005 gold production: *218,057 ounces*

Nine months 2005 average cash cost: *\$171 per ounce*

Boroo reserve, resources and production on a 100% basis.

EXPLORATION PROPERTIES

Gatsuurt Exploration Property

The Gatsuurt property is an important exploration target within the extensive Noyon land position that Centerra holds for exploration.

Location: *Mongolia*

Ownership: 100%

Indicated resources: *11 million tonnes at 3.5 grams per tonne or 1.3 million ounces of contained gold*

Inferred resources: *2.2 million tonnes at 3.0 grams per tonne or 0.2 million ounces of contained gold*

Activity: *exploring and drilling for additional mineralization. A feasibility study to determine the best development option was initiated in the second quarter of 2005.*

2005 budget: *\$3 million*

REN Exploration Property

REN is a promising exploration property in the resource-rich Carlin Trend region of Nevada, located adjacent to Barrick's Meikle Mine. Since 1995, the region has produced over 50 million ounces of gold.

Location: *Nevada, U.S.*

Ownership: 62%

Partner (Barrick): 38%

Indicated resources: *1.9 million tonnes at 13.1 grams per tonne or 0.8 million ounces of contained gold*

Inferred resources: *1.3 million tonnes at 12.7 grams per tonne or 0.5 million ounces of contained gold*

Activity: *further exploration drilling*

2005 budget: *\$6 million (100% basis)*

Other Exploration Properties

Kumtor + Southwest Zone

Location: *Kyrgyz Republic*

Ownership: 100%

Activity: *drilling programs in the vicinity of the Kumtor pit, the Southwest Zone and the Sarytor area*

2005 budget: *\$13 million*

Boroo

Location: *Mongolia*

Ownership: 95%

Activity: *drilling within and adjacent to existing pit*

2005 budget: *\$1 million*

Mongolia Exploration Licences

Ownership: 100%

Activity: *regional exploration and drill testing of prospective targets*

Size: *515,350 hectares as of December, 2004*

2005 budget: *\$1 million*

Reserve and resource estimates for Kumtor, Boroo and REN are as of December 31, 2004. The reserve and resource estimates for Gatsuurt are as of March 31, 2005. The reserve and resource estimates for Kumtor, Boroo and Gatsuurt were prepared by Centerra's geological and mining engineering staff under the supervision of Robert S. Chapman, P. Geo., Centerra's Director, Mergers and Acquisitions who is a Qualified Person. The resource estimate for REN was prepared by Roscoe Postle Associates Inc., of Toronto, Canada, in collaboration with Robert S. Chapman. The Boroo estimate utilized an updated resource block model prepared by Geostat Systems International Inc.
